

# DATSUN ROADSTER BALL JOINT

Featured here, from Rare Parts, Inc., is a lower ball joint for Datsun 1600 and 2000 Roadsters, from 1966-70 (part # RP10245). With an improved design, this part is greasable, made of hardened steel-on-steel, and exceeds OEM quality specifications. This ball joint has been obsolete for the last ten years, and has never been made available in the aftermarket. Quantity discounts are available on this part.

If you are looking for heavy-duty USA-made suspension and steering components, then look no further! All Rare Parts pieces are guaranteed to meet or exceed OEM quality specifications. Rare Parts has manufactured rare and obsolete suspension parts since 1981 and has a full testing facility for both destructive, and cycle tests. Our inventory consists of over 2 million steering and suspension parts. We cover all suspension, for all domestic and imported cars and trucks, from 1930 to the present date!
